Overview

The purpose of this course is to familiarize students with the basic concepts, models, and methods of economic theory concerning individual and organizational behavior. In this course, we focus on the economic way of thinking for public managers, administrators, and more generally, pivotal actors in the process of public policymaking. Microeconomics in general, are designed to account for the behavioral foundation of decision-making in the real world. Therefore, the emphasis will be on linking the theoretical rigor and policy applications. Through the semester, we will cover four sections of topics: (1) incentives and individual choices, (2) rational organizational behavior, (3) the economic rationale of public policymaking, and (4) the political economy of domestic and international markets. Students who are interested in this course should fulfill the prerequisites, PUBL 6410 and PUBL 6411, or equivalent.

Learning Objectives

1. To become familiar with economic approaches to public resource allocation.

2. To understand the conceptual foundations for problem analysis in the context of public policymaking.
3. To understand the conceptual foundations for solution analysis in the context of public policymaking.
4. To become familiar with applying the key principles of economics to real world policy applications.

Required Readings

1. Weimer, David L. and Aidan R. Vining. 2011. *Policy Analysis*, 5th edition, Longman. (Hereafter, WV 2011.)
2. O'Sullivan, Arthur, Steven M. Sheffrin, and Stephen J. Perez. 2011. *Microeconomics: Principles, Applications, and Tools*, 7th edition, Prentice Hall. (Hereafter, OSP 2011.)
3. Additional readings listed for weekly topics. All additional readings can be accessed through the Blackboard Vista, <http://www.uh.edu/blackboard>.

Course Requirements

1. Class attendance and regular participation in class discussion.
2. Read the assigned readings prior to each class meeting.
3. Weekly discussion notes. Each student is required to submit one discussion note on each week's readings. Discussion notes are due by Wednesday at noon (via the Blackboard Vista assignment drop-box) each week that the class meets. All the discussion notes should be the most important questions or arguments that the student has identified based on the assigned readings. They will help to foster in-class discussion and will be shared at the beginning of each class meeting. DO NOT write more than 120 words in one discussion note.
4. Two open-book problem sets.
5. Research paper. Students are expected to write a 20-25 page research paper. In this research paper assignment, students are to analyze the cause or effect of a public policy using the models and concepts learned in this course. When composing the research paper, students should follow the Chicago Manual of Style, <http://www.chicagomanualofstyle.org/home.html>. Students should submit their final papers to <http://www.turnitin.com>.
6. Mini-Conference. We will hold a mini-conference during our class meeting on Week 15 (April 26). Each student will have 20 minutes to present his or her research paper to the class and to draw feedback from the audience.

Attendance and Late Policy

1. Attendance. Absence from the class will only be accepted in extenuating circumstances with a university-accepted excuse. If you know in prior that you cannot attend the class, please inform me before the scheduled class-meeting.
2. Late Policy. Late work will be penalized by one letter grade. E.g. an A-paper turned in one day late will become a B-paper. Late work would only be accepted with university-accepted excuses without penalty.

Grading

1. Participation (discussion notes and attendance), 10%
2. Three problem sets, 15% for each.
3. Research paper, 50%
4. Mini-conference presentation, 10%
5. Final Grades
 - A = 100-95 (Excellent)
 - A- = 94-90
 - B+ = 89-87 (Good)
 - B = 86-84
 - B- = 83-80 (Poor)
 - C+ = 79-77
 - C = 76-74
 - C- = 73-70
 - D+ = 69-67
 - D = 66-64
 - D- = 63-60
 - F = 59-0 (Failing)

Academic Integrity

As commonly defined, presenting the words or works of others' as your own is plagiarism. Plagiarism is one of the worst academic sins, for the plagiarist destroys the trust among colleagues, without which research cannot be safely communicated. Plagiarism is also a violation of the UH Academic Honesty Policy. If you are uncertain of what constitute academic dishonesty, you should contact me prior to submitting the assignment and/or check the UH Academic Honesty Policy from the university website: www.uh.edu/provost/policies/uhhonestypolicy.html. Students are expected to adhere to the UH Academic Honesty Policy. Cheating or plagiarism in course assignments, exams, and the final paper will lead to a grade of F.

Americans with Disability Act (ADA)

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you need special accommodations and assistance due to a disability, please contact the Center for Students with DisABILITIES (CSD Building 568, Room 110) and the Learning Support Services (LSS, 321 Social Work Building), or call 713-743-5411 to make appropriate arrangements.
